Yes, that's a good idea to put a link to the EPA page for Gold King.

Michele,

Along these lines, I was wondering if you want to post some sort of statement on the CLU-IN mining site about Gold King - e.g., link to Administrator McCarthy's official statement about the incident.

I'll try to reschedule something in September (?) with Joy. I thought you might be busy with this issue, so I understand that you might not have time for a while!

Mary

Subject: call this morning

Joy and Mary,

I need to reschedule our meeting about the tunnel plugging webinar. I am staffing the

Emergency Operations Center related to the mine incident at Gold King. I will be in another meeting at the time we are scheduled to speak.

I apologize the inconvenience.

Michele
